OBJECTIVE

An enthusiastic IT professional with nearly four years of experience as a Network Support Engineer, proficient in optimizing, maintaining, and troubleshooting network systems. Eager to transition into a Software Developer role, leveraging strong problem-solving skills, a passion for coding, and proficiency in Java, C++, Python, and web development technologies (HTML, CSS, JavaScript). Dedicated to continuous learning and contributing to software projects that drive innovation and solve real-world problems.

PROFESSIONAL EXPERIENCE

Integrated BigData Technologies Corp.

Network Support Engineer

March 2022 – January 2026

- Leveraged advanced CLI skills with PuTTY to configure over 100 Teldat routers, implementing Dual WAN technology for nationwide deployment. This setup optimized network reliability, reduced downtime by 30%, and ensured seamless failover across multiple stores.
 - Implemented IPsec and tunneling protocols for secure communication across deployed TELDAT routers, enhancing data security and supporting consistent store connectivity.
 - Monitored and tracked performance of 100 Teldat routers, reducing average downtime incidents by 25% through proactive client reporting and ISP coordination.
 - Supported installation, configuration, and maintenance of network devices, including routers and Network Interface Devices (NIDs), ensuring optimal performance and reliability across client infrastructure.
-

EDUCATION

Bachelor of Science in Information Technology

Arellano University, Pasay Campus | 2022

Senior High School Diploma (STEM: Science, Technology, Engineering, and Mathematics)

Arellano University, Mabini Campus | 2018

KEY COMPETENCIES

Technical Skills:

- Programming Languages: Java, C, C++, Python
- Web Development: HTML, CSS, JavaScript, PHP, React
- Network Skills: IP Addressing & Subnetting, Network Configuration, Network Troubleshooting
- Software Proficiency: Microsoft Office (Word, Excel, PowerPoint)
- Tools: VS Code, PuTTY, GitHub, IntelliJ IDE, Netlify

Soft Skills:

- Analytical and Critical Thinking
 - Problem-Solving
 - Teamwork and Collaboration
 - Adaptability and Flexibility
 - Time Management
-

PROJECTS

Portfolio Website

- Developed a personal portfolio website optimized for fast load times, animations, and responsive design using Next.js and TypeScript.
- Designed a modern, accessible UI with Tailwind CSS and Shadcn, incorporating Framer Motion for smooth animations and interactive transitions.
- Showcases a dynamic collection of projects with links to source code on GitHub and interactive demos for hands-on exploration.
- Tech Stack: React, Typescript, Next.js, Shadcn, Tailwind CS.

UpFace - Video Conference Web App

- Built and deployed a React-based video conferencing app supporting real-time video/audio communication using ZEGOCLOUD and Firebase authentication.
- Ensured a responsive and user-friendly interface to improve user experience.
- Tech Stack: React, Vite, Firebase, ZEGOCLOUD, Redux Toolkit.
