SUMMARY

An enthusiastic IT professional with nearly four years of experience as a Network Support Engineer, proficient in optimizing, maintaining, and troubleshooting network systems. Eager to transition into a Software Developer role, leveraging strong problem-solving skills, a passion for coding, and proficiency in Java, C++, Python, and web development technologies (HTML, CSS, JavaScript). Dedicated to continuous learning and contributing to software projects that drive innovation and solve real-world problems.

EXPERIENCE

Network Support Engineer

Makati City, Philippines

[Integrated BigData Technologies Corp](#)

03/2022 - 01/2026

- Leveraged advanced CLI skills with PuTTY to configure over 100 Teldat routers, implementing Dual WAN technology for nationwide deployment
- This setup optimized network reliability, reduced downtime by 30%, and ensured seamless failover across multiple stores
- Implemented IPsec and tunneling protocols for secure communication across deployed TELDAT routers, enhancing data security and supporting consistent store connectivity
- Monitored and tracked performance of 100 Teldat routers, reducing average downtime incidents by 25% through proactive client reporting and ISP coordination
- Supported installation, configuration, and maintenance of network devices, including routers and Network Interface Devices (NIDs), ensuring optimal performance and reliability across client infrastructure

PROJECTS

Personal portfolio website

<https://laroyaportfolio.netlify.app/>

Developed a personal portfolio website

- Optimized for fast load times, animations, and responsive design using Next.js and TypeScript.
- Designed a modern, accessible UI with Tailwind CSS and Shadcn, incorporating Framer Motion for smooth animations and interactive transitions.
- Showcases a dynamic collection of projects with links to source code on GitHub and interactive demos for hands-on exploration.
- Tech Stack: React, TypeScript, Next.js, Shadcn, Tailwind CSS.

Video Conference web app

<https://up-face.vercel.app/>

Built and deployed a Video Conference Web App

- Built and deployed a React-based video conferencing app supporting real-time video/audio communication using ZEGOCLOUD and Firebase authentication.
- Ensured a responsive and user-friendly interface to improve user experience.
- Tech Stack: React, Vite, Firebase, ZEGOCLOUD, Redux Toolkit.

KEY ACHIEVEMENTS

Network Optimization

Configured 100+ routers, boosting network uptime by 30% using Dual WAN technology.

Downtime Reduction

Reduced downtime by 25% through proactive monitoring and ISP coordination.

Portfolio Website

Developed and launched a responsive portfolio site showcasing personal projects

SKILLS

Technical Skills:

Java, C/C++, Python, HTML, CSS, JavaScript, Putty, Routers, PHP, React, Microsoft Office, GitHub, Next.js, TypeScript, Tailwind

Soft Skills: Analytical Thinking, Critical Thinking, Teamwork and Collaboration, Time Management, Adaptability and Flexibility

EDUCATION

Bachelor of Science in Information Technology

Arellano University

Pasay Campus

2022
